Location: Cali, Colombia

PROFESSIONAL PROFILE

Systems Technologist and Software Developer with 4 years of experience in backend development using C# (.NET / ASP.NET Core) and solid proficiency in Java. Experienced in the full software development lifecycle (SDLC) for web and desktop applications, designing and building robust solutions using RESTful APIs, Entity Framework, and efficient relational database management.

Additionally, I have brought over 10 years of experience in L1/L2 technical support, which has fostered strong skills in debugging, incident resolution, system optimization, and technical/end-user support. This combination allows me to approach development challenges with a comprehensive vision, prioritizing stability, functionality, and high-quality service.

WORK EXPERIENCE

Software Developer (.NET)

Sep. 2025 – Dec. 2025

[Patec SAS — Cali, Colombia](#)

- ✓ Designed and developed complex backend components using .NET Framework and .NET Core, ensuring business scalability and system stability.
- ✓ Built and optimized Webservices and service-oriented architectures (SOA) for high availability.
- ✓ Improved response times by 30% through code refactoring and the implementation of efficient SQL queries.
- ✓ Guided the migration of local applications to centralized cloud environments via Azure DevOps, enhancing operational continuity.

Junior Software Developer (.NET)

Apr. 2022 – Mar. 2025

[Fisla Tecnologia SAS - Remote \(Bogotá\)](#)

- ✓ Developed business logic layers and integration services using MVC architecture and stable REST/SOAP Web APIs.
- ✓ Performed proactive analysis, fixed critical bugs, and optimized performance in business modules developed in both C# and Java.
- ✓ Provided evolutionary maintenance for relational databases and continuous logic optimization using Entity Framework.
- ✓ Authored comprehensive technical documentation and operational manuals to standardize internal engineering processes.

Junior Software Developer (.NET)

Jul. 2021 – Sep. 2021

La Vital - Cali, Colombia

- ✓ Developed business logic and integration layers utilizing MVC architecture and REST/SOAP Web APIs.
- ✓ Optimized system response times by 30% through deep refactoring of legacy code and the design of highly efficient SQL Server queries.
- ✓ Diagnosed production system failures and managed MySQL databases effectively.

Systems Analyst

Jul. 2019 - Nov. 2020 / Nov. 2021 - Mar. 2022

Blaucast Media SAS - Cali, Colombia

- ✓ Validated and diagnosed information system failures.
- ✓ Administered MySQL databases and provided L1/L2 technical support.
- ✓ Developed web applications using Laravel; analyzed data and debugged code to ensure application reliability and continuous improvement.

Infrastructure and Support Specialist

Before de 2019 (~10 years of experience)

Technical Support and Hardware/Network Infrastructure Specialist

- ✓ Provided remote and end-user support for large organizations (e.g., Grupo Carvajal)
- ✓ Performed integral diagnostics and repairs on hardware (Laptops/Desktops - L1 & L2).
- ✓ Maintained electronic components (tablets, TVs, audio systems).
- ✓ Designed, installed, and administered internal network infrastructure.
- ✓ Advanced technical support and data network connectivity troubleshooting.
- ✓ Interpreted complex electronic schematics and repaired circuits.

EDUCATION

Systems Engineering

Jun. 2024 – Present (In Progress)

Universidad Nacional Abierta y a Distancia – UNAD

National Open and Distance University

Technologist in Systems Analysis and Information Development

May. 2016 – May. 2018 (Graduate)

SENA — Centro de Tecnología de la Manufactura Avanzada (CTMA)

Center for Advanced Manufacturing Technology

Technician in Computer Hardware Maintenance

Oct. 2009 – Sep. 2010 (Graduate)

SENA — Centro de Electricidad y Automatización Industrial (CEAI)

Center for Electricity and Industrial Automation

TECHNICAL SKILLS

Backend

.NET / ASP.NET Core, C#, Entity Framework, APIs REST, MVC, SOAP, Microservices

Databases

SQL Server, MySQL, MongoDB

Frontend & UI

React JS, JavaScript, HTML, CSS, Bootstrap, Blazor.

DevOps & Tools

Azure DevOps, Git/GitHub, Docker, Postman, Swagger.

Productivity

Advanced Excel(Pivot tables, formulas, macros), Power BI (Basic), Word, PowerPoint.

Languages

Spanish (Native)

English (Intermediate B1 - Technical reading and written communication).

Other

Python, Java, Unity, IoT, Robotics.

KEY PROJECTS

REST API Backend System

Developed APIs using .NET Core, JWT, Entity Framework, and SQL Server, adhering to Clean Architecture principles.

AI Virtual Assistant

Conversational assistant project built in C# with SQL Server integration and natural language processing.

ACHIEVEMENTS & AWARDS

3rd Place (National/Regional)

Latin American Innovation Rally 2024. - Co-creation and rapid development of engineering solutions under pressure, addressing real-world industry challenges.

International Participation

LatinBot International Robotics Tournament 2015 - Formal competition focused on the logical design and construction of autonomous robots.

SENA Leadership

Recognized by SENA as an Outstanding Learner Leader.
